

## H.O.P.E. Grant – Application Detail Form

The goal of H.O.P.E.'s grant program is to enable supplementary financial support to Heyworth Elementary staff for the end benefit of student education/enrichment. The below questions should be completed to provide a more detailed description of the grant request. The application form should not exceed one typed page. Completed applications should be submitted along with the Grant Request Application Form to the H.O.P.E. mailbox (heyworthhope@gmail.com) at least 2 weeks prior to the H.O.P.E. review meeting. Completed applications will be made available to H.O.P.E. Membership prior to the review meeting and copies will be on hand at the meeting for additional review prior to voting.

1. Describe the proposed need/project/program and the objectives it would accomplish.

I would like to purchase Gelli Printing Plates, stencils, printing ink, and aprons. The Gelli Plates are a wonderful printmaking tool. They can be adapted to use with younger and older kids (I plan on using them with 2nd-6th Grade but I could also use them with the littlest kids). Plus, they last for years if you take care of them. There is so much you can do with them, so the options for the kids are endless. The plates are something I have wanted to purchase every year, but they're just too expensive for me to use my regular budget on them. I have aprons for the little kids, but I don't have many for the older kids. Printmaking is a messy process and I want the older kids to wear aprons when using the plates.

2. What is the estimated cost of the project/program? Please summarize and attach itemized list.

**Grand Total: \$311.18, plus shipping and handling (this should qualify for free shipping though). All supplies are from Dick Blick Art Supply. An itemized list is attached. To summarize, I would purchase printing ink, stencils, aprons, and printing plates.**

3. Who and how many would benefit from this project/program? What would be the impact on students/staff?

The Gelli Plates can be adapted to use with younger and older kids (I plan on using them with 2nd-6th Grade but I could also use them with the littlest kids). I can also use them for many years, not just this year. They are also easy to use so they would support my program because I am trying to have the kids be more independent in the art room (with supplies and ideas). The aprons would help the kids and the parents as printing ink is not as washable as the other types of paint that we normally use in the art room.
