

H.O.P.E. Grant – Application Detail Form

The goal of H.O.P.E.'s grant program is to enable supplementary financial support to Heyworth Elementary staff for the end benefit of student education/enrichment. The below questions should be completed to provide a more detailed description of the grant request. The application form should not exceed one typed page. Completed applications should be submitted along with the Grant Request Application Form to the H.O.P.E. mailbox (heyworthhope@gmail.com) at least 2 weeks prior to the H.O.P.E. review meeting. Completed applications will be made available to H.O.P.E. Membership prior to the review meeting and copies will be on hand at the meeting for additional review prior to voting.

1. Describe the proposed need/project/program and the objectives it would accomplish.

Teaching for Artistic Behavior (TAB) Curriculum resources. I would like to implement TAB in my classroom starting in the 2017-2018 school year. A TAB curriculum focuses on student led and generated art making. Students are responsible for designing projects that meet the Art Standards and incorporate techniques learned from teacher directed mini-lessons. They will have a variety of materials and resources available to use as they wish. Students respond to feedback from the teacher and peers to improve their artwork. They also self-assess and problem solve daily. TAB focuses on teaching skills that can be applied to real life situations through the process of making art. In addition, TAB incorporates science, math, reading, writing, etc.. very effortlessly.

A TAB Art room needs to be one where the kids have easy access to a large variety of organized supplies. Storage and organizational supplies are a necessity. As well as small amounts of many different supplies (as opposed to class-sized amounts of fewer supplies).

2. What is the estimated cost of the project/program? Please summarize and attach itemized list.

\$1,206.24 (free shipping) I am asking for containers and shelves for supply and project organization, supplies for an architecture/3D center, and other supplies that are too costly to purchase with my regular budget (most of which are non-consumable). Itemized list is attached.

3. Who and how many would benefit from this project/program? What would be the impact on students/staff?

Every student in grades Kindergarten - 6th grade will have access to these supplies every time they come to art. Many of these supplies are non-consumables and will be used for many years.
