## H.O.P.E. Grant – Application Detail

The goal of H.O.P.E.'s grant program is to enable supplementary financial support to Heyworth Elementary staff for the end benefit of student education/enrichment. The below questions should be completed to provide a more detailed description of the grant request. The application form should not exceed one typed page. Completed applications should be submitted along with the Grant Request Application Form to the H.O.P.E. mailbox ([heyworthhope@gmail.com](mailto:heyworthhope@gmail.com)) at least 2 weeks prior to the H.O.P.E. review meeting. Completed applications will be made available to H.O.P.E. Membership prior to the review meeting and copies will be on hand at the meeting for additional review prior to voting.

1. Describe the proposed need/project/program and the objectives it would accomplish.

I have been working on creating and putting together "busy boxes" for my pre-k classroom. These boxes each will contain fun learning activities that students can work on independently at any "down time" or station time. There are times when I need to be able to work with small groups or individual students to complete activities and these busy boxes would give the other students opportunities to be engaged in learning activities while they wait for their turns. The boxes will focus on a variety of pre-k skills including literacy, early math skills, science topics, basic concepts, and fine motor skills.

To complete this project, I am in need of storage items (boxes) and additional storage space for my classroom. I plan to start with 20 boxes but would like to eventually add more boxes to the collection. I am planning to move around some things to increase room for the boxes. That is the reason for the two furniture pieces I am requesting. I also need to be sure that the boxes are good enough quality to withstand pre-k hands opening, closing and quite possibly even dropping them!

2. What is the estimated cost of the project/program? Please summarize and attach itemized list.

Total estimated cost is \$720.08. This is including shipping and handling fees to the best of my estimating ability. Please see the attached itemized list of costs.

3. Who and how many would benefit from this project/program? What would be the impact on students/staff?

This project would benefit my entire morning Pre-K class and my Extended-day Pre-K group in the afternoon, as well as my classes in coming years. The idea behind the busy boxes is that they not only target important academic skills, but they also introduce young students to the idea of independent learning in a fun, structured way.

- (1) toddler storage table ~~\$289.99~~ (Discount School Supply)
- (4) sets of 6 stackable storage trays with lids ~~\$182.86~~ (Really Good Stuff)
- (1) set of 5 stackable bins ~~\$27.24~~ (Really Good Stuff)
